EDUCATION

VIT Bhopal University

B.Tech in Computer Science and Engineering (CGPA: 8.51)

Bhopal, India

2023 – 2027

KV Andrews Ganj

CBSE Class XII – 87% CBSE Class X – 85%

New Delhi, India

2021 – 2023

TECHNICAL SKILLS

Languages: C++, C, Java, JavaScript (ES6+), Python

Frontend: React.js, Next.js, TailwindCSS, shadcn/ui, Redux

Backend: Node.js, Express.js, Authentication (JWT and OAuth), REST APIs

Database: MongoDB, SQL

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering

AI & ML: Gen AI, AI Agents, Gen AI Models, LLMs, RoboFlow, YOLOv8, TFLite

WORK EXPERIENCE

AI Implementation Intern

11 May 2026 – 11 August 2026

Healthmug Private Limited (Onsite)

Delhi, India

- Built a document extraction and validation model using Gemini models and prompt engineering, auto-filling doctor registration forms on the platform.
- Built an identity verification system to cross-check uploaded documents against registration form details using prompt engineering and AI models.
- Set up an MCP server on the company's PostgreSQL database, building custom personas and agents to auto-generate Business Intelligence and historical data reports.
- Built an AI agent using the Gemini API to auto-draft reply emails, reducing repetitive response time for employees.

PROJECTS

FeastPaaaji – Food Discovery & Ordering Platform | *React.js, Node.js, Express.js, MongoDB*

[GitHub](#)

- Developed a role-based authenticated web application connecting users with local food partners.
- Built RESTful APIs and integrated MongoDB for efficient data storage and management.
- Designed responsive UI with React.js to allow users to browse food items and contact partners for orders.
- Ensured secure and scalable backend using Node.js and Express.js, with proper validation and error handling.

Employee Management System | *React.js, TailwindCSS, JavaScript*

[GitHub](#)

- Developed an admin dashboard to manage employees and track assigned tasks.
- Implemented local storage for client-side data persistence.
- Built a task management system with deadlines and descriptions.
- Designed a responsive UI using TailwindCSS for improved usability.

Sociogram – Social Media Content Sharing Platform | *React.js, Node.js, Express.js, MongoDB*

[GitHub](#)

- Building a full-stack social media platform for uploading and viewing photo/video posts.
- Utilized MongoDB and cloud storage for efficient user data management and scalable media uploads.
- Developed REST APIs using Node.js and Express.js for frontend-backend communication.
- Implemented secure authentication and authorization for user access control.

EXTRA-CURRICULAR ACTIVITIES

- Member of Kabaddi team for school tournaments.
- Member of Cricket team for local residential tournaments.
